

LIGHTING & GRIP COMBINATION TRUCKS

Here at Essanay we take great pride in each of our four lighting trucks. Each is painstakingly laid-out, resulting in vehicles which carry impressive amounts of equipment, yet are easy (and fast) to work out of.

Each truck includes a grip package, with the option of adding a flat-rate electrical distribution and tungsten lighting package. Pre-set HMI lighting packages can be added to our 10 ton trucks, and flat-rate custom smaller HMI packages are available with our 8 ton. All of the various packages include types and quantities of equipment that set a benchmark in value for the money.

Longer term rental rates and travel rates are available upon request.

Expendables are charged on a "per use" basis. Correction gels and diffusion materials are sold by the yard.

Essanay will, at its discretion, designate one of your crew as the driver/operator. (See: Terms and Conditions)
